* Hours are indicative and subject to change.

- Workshops given by **leading experts** on relevant and current issues for each of the 5 specialisations.

Training Programmes*

Law enforcement agencies (LEAs):

The cybersecurity track for security forces covers different areas that are crucial for combating cybercrime. Includes subjects like OSINT for police investigations, use of AI by cybercriminals and a series of current issues. This training will provide professionals with the skills necessary to tackle the current digital threats and protect society.

CSIRT operations:

Our specialised cybersecurity track for CSIRT/CERTA team develops essential areas like cyberpatrol techniques, incident response, threat detection and monitoring, a broad training programme for tackling cybercrime challenges with the best practices and tools in the sector.

Judge's programme:

The cybersecurity track designed exclusively for judges, a pioneering initiative that provided deep understanding of the complexities of cybercrime and gives professionals the right to tackle these challenges in the judicial system. Through a practical and updated focus, this course covers crucial issues that allow judges to acquire the knowledge they need to tackle cybercrime efficiently.

Prosecutor's programme:

The cybersecurity programme designed for prosecutors is a unique opportunity to improve skills to tackle cybercrime in the legal system. This track offers an integrated approach that develops the knowledge needed to successfully tackle the challenges of the digital word.

Programme for policy makers and cyberdiplomats:

This programme provides participants with the tools and knowledge necessary to develop effective policies and strategies in cybersecurity, and to promote international cooperation and the creation of skills in this field that is so important to national and global security.

Other activities

- **Activities to promote networking** among attendees and the need for collaboration among them.
 - **Role Play:** practical and collaborative cases in which profiles from the different specialities participate and give their point of view in order to resolve an incident.
 - **Practical Workshops:** offering realistic cybersecurity crisis situations, where participants must make quick, effective decisions to manage the situation. This includes coordination with other government agencies, communications with the public and strategic decision making in real time.
 - **Leisure activities:** guided tours of the city of León and visits to the most emblematic monuments, promoting the dissemination of the activities on social networks.
- **Expert talks** on different current topics, ongoing research and new tools related to cybersecurity and other areas.

Results of 2023 Edition

- 🟡 Face-to-face format with **260** participants from **25** countries.
- 🟡 **4** hours of **keynotes and masterclass**.
- 🟡 **Specific training:**
 - 🔹 Police investigation: **35 hours** of training
 - 🔹 CSIRT operations: **37,5 hours** of training
 - 🔹 Prosecutors: **17 hours** of training
 - 🔹 Judges and Magistrates: **17 hours** of training
 - 🔹 Political, regulatory or legislative stakeholders: **22 hours** of training
- 🟡 **80** speakers and **8 international** keynotes speakers.

Participant's feedback:

- 🟡 **100%** would recommend the training programme
- 🟡 **100%** excellent level of satisfaction
- 🟡 **90%** of the contents were of great interest and usefulness
