1. INTRODUCTION

ENISE is the International Meeting on Information Security, which has been held annually in the city of León.

After 13 editions, the event has consolidated itself as a leading business forum and meeting point for the cybersecurity industry, professionals of the sector, the entrepreneurial ecosystem as well as the academic and research environment.

The 2019 edition brought together 2,684 attendees who gathered at the León Exhibition Centre for an extensive activities program: 52 national and international speakers gave lectures in the main hall of the event; 9 international investors held 188 bilateral meetings with Spanish entrepreneurs and companies; and 85 companies participated by promoting their products in the exhibition area.

In conjunction with the official ENISE program, participants had the opportunity to make new contacts, hold informal meetings and network, a fundamental element for a successful business forum.

In 2020, the 14th edition of the event will take place, which will be held virtually for the first time, without an in-person audience.

14ENISE spirit will be held online on the 20th and 21st of October 2020.

It is a business forum that offers attendees a space for expert discussion and generation of business opportunities.

The objectives of ENISE are the following:

- To promote a meeting that generates business opportunities and internationalization for the Spanish cybersecurity industry.
- To encourage networking among professionals and consolidate the event as a reference meeting point for the cybersecurity sector.
- To position ENISE as an international showcase of cybersecurity trends, solutions and threats.
- Especially in this first online edition, providing 14ENISE spirit attendees and exhibitors with a positive participation experience, where they can establish relationships and connections online much like they would in the physical environment.

To respond to this need, a 14ENISE spirit program has been designed which includes the following activities:

- Program of conferences and roundtables
- Virtual exhibition space for companies
- International business forum with virtual bilateral meetings

Within the framework of this event, INCIBE wishes to make public and extend a call to all possible interested parties to establish collaborations with sector companies that may be interested in participating in 14ENISE spirit.

Two initiatives have been proposed:

- 14ENISE spirit sponsorship: aimed at companies or subsidiaries based in Spain.

- Foreign exhibitor: aimed at foreign companies with registered offices outside of Spain.

The terms and conditions for the participation of foreign exhibitors in 14ENISE spirit are the subject of this public call.

2. WHY PARTICIPATE IN 14ENISE SPIRIT?

14ENISE spirit is the benchmark forum for professionals in the sector. It offers an international showcase for brands, provides a space for brand presence and allows a large community of professionals to be reached.

In a virtual environment, exhibitors will gain visibility and have the possibility of making high-level professional contacts:

- Visibility before, during and after the event
- An opportunity to network with organizers, speakers, personalities, exhibitors, buyers, investors and entrepreneurs
- Positioning as a company that supports the growth of the cybersecurity sector
