Participation in European Projects

SIC-SPAIN 2.0
Jan 2021-Dec 2021
(Beneficiary)

Safer Internet Centre Spain 2.0
Is a continuation of the SIC-SPAIN project with three objectives: awareness raising, helpline and reporting channel for dangerous content. The operations of the helpline, as well as the hotline, will guide the design of specific awareness campaigns that will contribute to the capacity building of the European Strategy: Better Internet for Kids (BIK).

4NSEEK
2019-2021
(Coordinator)

Forensic Against Sexual Exploitation of Children
4NSEEK encourages international police cooperation in the fight against child sexual abuse and the distribution of its contents through the Internet, through training actions of police authorities, awareness and dissemination for children and adolescents, parents and educators as well as technological development of forensic tools for obtaining digital evidence.

SIC-Spain
2019-2020
(Coordinator)

Safer Internet Centre Spain
The SIC-SPAIN project continues and extends the service provided by Internet Segura for Kids (IS4K). It promotes the safe and responsible use of the Internet and new technologies among children and adolescents. In line with the European BIK (Better Internet for Kids) strategy, is part of the pan-European network INSAFE of Internet Safety Centers.

How we do it

Participation in European Projects

CERT-C3IS
2018-2020
(Coordinator)

Project of: incibe-cert_

Strengthening Spanish CERTSI Capacities for enhancing Cooperation and Intelligence Sharing in EU

CERT-C3IS improves CERT capacities of CERTSI (especially CERT and intelligence capabilities) to strength better services to CERTSI constituency, and to enforce cooperation and coordination with other EU CERTS, through the cooperation mechanisms provided by the Cybersecurity Core Service Platform (MeliCERTes).

IS4K
2016-2019
(Beneficiary)

Safer Internet For Kids

Setup and support Safer Internet activities in Spain.
Internet Security Center for children in Spain promotes the safe and responsible use of the Internet and new technologies among children and adolescents. In line with the European BIK (Better Internet for Kids) strategy, is part of the pan-European network INSAFE of Internet Safety Centers.

ACDC
2013-2015
(Beneficiary)

Advanced Cyber Defence Centre (ACDC)

Complete set of solutions accessible online to mitigate on-going attacks and targeted both to end-users and to network operators. It also consolidates the data provided by various stakeholders into a pool of knowledge, accessible through the ACDC central clearing house

How we do it

Participation in European Projects

ScadaLAB
2012-2014
(Coordinator)

SCADA laboratory and test bed as a service for critical infrastructure protection
Safeguarding critical infrastructures in EU member states, covering numerous sectors, including transport, energy, information and communication technology (ICT), chemical, financial, water, food, health, space research, and nuclear

CloudCERT
2012-2013
(Coordinator)

Testbed framework to exercise critical infrastructure protection
Secure information sharing testbed framework in order to exercise unified coordination using same communication protocol standards for improving visibility of common threat awareness, vulnerabilities, advisories and alerts specific to CIP

ASASEC
2011-2014
(Coordinator)

Advisory System Against Sexual Exploitation of Children
Innovative technology solution able to improve the current technical means in the fight against child pornography around the world. The main user of this solution will be the Technological Investigation Brigade of the National Police in Spain. Nevertheless, its design and development will facilitate reuse by other international LEAs.

How we do it
